“Decorative Trays are all the rage.”

1. Turn your living room or dining room console into a beautiful serving bar by simply organizing your wine or liquor bottles on a fabulous antiqued mirrored silver tray. Always choose your prettiest wine and liquor bottles to display to make a powerful design statement.
2. Every woman needs a stylish way to display her perfume bottles. Add a live orchid, Chanel book and a vintage perfume bottle to bring life, color and interest to the tray for your bathroom vanity.
3. Serve drinks to your guests on this coconut shell tray by Julia Knight. Display on a kitchen island or cocktail table with fresh flowers and let guests serve themselves.
4. Get hip to stunning splashes of color by using this tray by Global Views. In the kitchen, organize utensils & use cookbooks to stack items for added height.
