ALL TEXAS

HIGH CONTRAST

By Rhonda Reinhart

What's black and white and rad all over? The latest designs featuring home decor's most classic color pairing. Whether it's the contrasting matte finishes of Arteriors' Vickery chandelier or the blackened steel and hand-troweled plaster of Kelly Wearstler's Melange credenza, black and white make perfect partners, creating chic yet timeless interior touches. The modern masters at Knoll have gotten in on the B&W action too, offering a two-tone version of Harry Bertoina's classic Diamond chair, including options for a white basket frame and black vinyl upholstery.
